

Position Title: Bioprocess R&D Lab Technician / Intern

Company Overview:

PBS Biotech, Inc. is a private company based in Camarillo, CA, that manufactures and sells revolutionary single-use bioreactors that are ideal for scale-up of cell and gene therapy manufacturing. With a fully equipped in-house R&D laboratory, we also provide world-class contract services for manufacturing process development with leading expertise in various cell and gene therapy product types.

Job Description:

We are seeking a dedicated, well-organized, and highly motivated person to assist our rapidly growing company as a full-time or part-time lab technician or a full-time or part-time lab assistant intern.

Responsibilities and Tasks:

- ❖ Maintain clean and organized lab and office spaces. This includes washing and sterilizing glassware and disposal of biohazard waste in accordance with standard laboratory procedures.
- ❖ Support material management including purchasing, verifying receipts, restocking, and maintaining logs of lab material inventory.
- ❖ Assist in equipment documentation like preventative maintenance schedules.
- ❖ Perform daily laboratory activities and aid in experiments as required.

Required Qualifications and Skills:

- ❖ High school diploma. Graduated or current college student majoring in life sciences or biotechnology is a plus
- ❖ Excellent organizational skills and attention to detail
- ❖ Knowledge of MS Word and Excel (or equivalent software)
- ❖ Positive attitude with ability to perform tasks accurately
- ❖ Good oral and written communication skills
- ❖ Ability to work in a team as well as alone with minimal supervision in a dynamic environment
- ❖ Previous experience in a biological lab and/or aseptic cell culture techniques is a plus
